Diego at Birth
Diego Now
Nicaragua

Nicaragua

THE BEST THANK YOU!

In 2015, Sr. Rebecca Trujillo introduced Diego to us - our Notre Dame family as an infant in need...in need of prayers.

Diego, born on August 20, 2015, was a happy flourishing new born...until he wasn't.

At four months old, Diego was infected with the Chikungunya Virus. This virus is transmitted by mosquitoes and has no known vaccine. The only treatment was to alleviate symptoms: Rest, comfort and hydration.

This virus simulates Dengue Fever. It is tropical and severe.

We committed Diego to our prayers for God's blessing and care.

Sr. Rebecca and Sr. Sandy continue to support the Missions in Nicaragua, recognizing the struggle of women, children and families.

Educational, economic, social and political activity operating under strict government regulations, limit program availability especially for non-profit organizations.

We are grateful for your presence with us in prayer and support of our [Mission to make known the goodness of God.](#)

Diego today has the best thank you ever for all of us (translation provided)

Translation: "Hello Sisters, my name is Diego. Thank you for caring for me when I was in the Neonatal Unit. I like soccer, reading and physical education. I'm in the first grade in St. Louis School, the best school here. (He continues with his school anthem). Thank you for caring for me and may God bless you.

Dear Friends,

Did your heart leap in gratitude knowing you, your prayers and support helps a child survive and thrive? [Your presence with us](#) in mission and ministry across continents changes lives. Together we continue to make known the good news of God!

Sr. Leonore Coan, SNDdeN
